

Made from up to  
**30 %**  
recycled material

 Inner height <b>58/92 mm</b>	 Inner width <b>up to 800 mm</b>	 B <sub>i</sub> increment <b>1 mm</b>	 Pitch <b>85/90 mm</b>	 Shock absorbed rollers
 Travel length <b>up to 1500 m</b>	 Travel speed <b>up to 10 m/s</b>	 Travel acceleration <b>up to 50 m/s<sup>2</sup></b>	 Sideband design <b>H-Strap</b> (closed system/linear forces)	 Additional load <b>up to 100 kg/m</b>

## TKHP SERIES „THE GRIZZLY“

New high-performance cable carriers in solid design in two sizes for extremely long travel distances and high additional loads with integrated rollers

- » High-performance cable carriers in three versions:
  - TKHP85/90
  - TKHP85/90-R with rollers
  - TKHP85/90-RSD with rollers and roller damping
- » Massive, enclosed, stain-repellend stop system
- » Massive sidebands through robust double fork-bracket-construction
- » Sidebands easy to assemble
- » Reinforced symmetrically arranged pin bore connection for better force transmission
- » Integrated noise damping
- » Quick and easy opening to the inside or outside for cable laying
- » Soil-resistant outer contour
- » Easy change of components
- » Maintenance-free
- » Linear force curve in the sideband
- » Quiet and low-wear operating through polygon-optimized contour and radii
- » Reduce drive power through less friction

Very smooth running of the roller system due to almost continuous running surface.	A non-slip structure on the running surface prevents one-sided roller wear after a standstill.	Roller chain for travel distances up to 1200 m.	RSD version with roller damping to reduce noise and wear by up to 50 %.
